Response to Angela Wexelman Letter to The President 2016 AS Comments.docx

Here are some initial comments – this may need more work, and Brad I'll defer to you on what we should or shouldn't say about groundwater.

Curtis, Alyse and Brad – can you look at this response to a control that focused on concerns with groundwater beneath the site? Andrew helped develop it and used previously developed talking points for the usgs report. Let Andrew and myself know your thoughts so we can finalize soon.

Thank you,
